

A New Winter & Year-Round Sport

With this referendum, Park Ridge Park District has plans to help residents beat the winter blues through the addition of one of the fastest growing adult sports in the midwest. Paddle Tennis is a fun sport that can be played year round, through all four seasons.

PADDLE TENNIS COURTS

- Two courts along with warming shelter and spectator waiting area
- Heaters beneath a raised aluminum surface — less than half the size of a standard tennis court — keep ice and snow away, and lights allow for evening matches
- One of only a handful of current public Paddle Tennis locations in the northwest suburbs
- Great transition sport for tennis players to continue playing a racquet sport in the winter
- Great way to keep active and have fun during the winter months
- A sport for all age groups

Lacrosse, Football & More

Lacrosse has grown over the last 4 years in Park Ridge with more than 233 boys and girls participating locally in this sport. Through the Youth Campus referendum, Park Ridge Park District will be excited to offer the very first home field for our community's lacrosse teams.

MULTI-USE ATHLETIC FIELD

- Sports field area (160ft x 360ft)
- Spectator seating area (concrete pad with bleachers)
- Accommodate community's growing lacrosse and football programs
- Soccer practice areas
- Serve current sports affiliates through the use of field, indoor meeting space and additional on-site equipment storage

Photos are not specific to design, but rather serve as representative imagery for the conceptual plans.
