Mr. Hoff: --

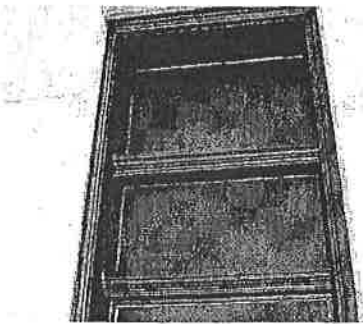

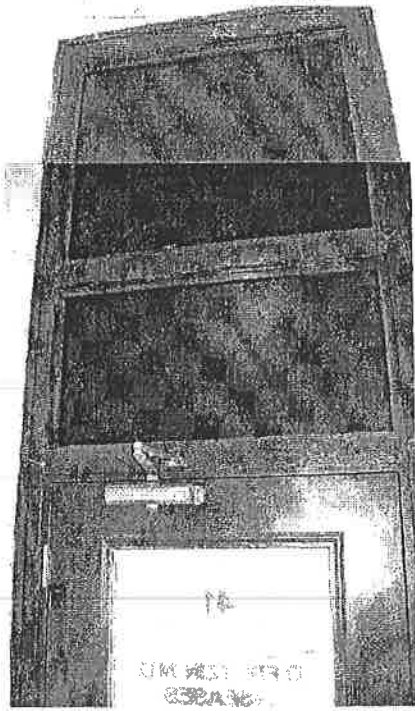

Please let this email serve as notification that the area in which Enopi Education Center wants to erect a sign does not cover a window. That building was erected in the early 1900's and is one of the oldest in town. I have been managing that building since 1989 and at no time has there ever been a window or glass in that area. It has always been painted the same as the door and trim. It gives it the look of a window with out it having to be a window. I hope this satisfies any question the review committee may have on this issue.

Please contact me should you have any other questions.
