Gayle gave me this and we talked about it. She asked for my input and for any corrections.... Very refreshing.

..again, this is for your eyes only. I presume you have already received something from Gayle about guidelines?? If not, this will fill in some of the cracks.

Several of the bullet points are fine. As a matter of fact, many are. However, what she seems to be suggesting is by not having an agreement and giving up any sense of control, we should contribute \$60000 per year as a way of saying we're happy with the situation they've created. I think not.

We have tentatively agreed to relinquish our claims for previous investments. So be it. I believe the point where we get our personal property back is important.

Will talk with you sometime tomorrow. (I did not send this sensitive material to Carla). If you want to speak with her about it, it's OK with me.

Hi and Happy Friday --

It has been another busy week. In addition to my Board Update, there are attachments; Pool Notifications to the Public and a document summarizing the roles of Senior Services and the Park District, and a recommendation for next steps. I am anxious to come to a conclusion one way or
